BASO DECOR

SONATECH
Akustik + Schallschutz

PRODUCT DESCRIPTION

Baso Decor is open-cell flexible foam with a considerable sound absorption capacity. Its most distinguishing feature is its excellent flame retardancy.

Baso Decor is particularly suitable for cases in which fire retardancy combined with good sound absorption is of importance. Due to its very low density together with its high degree of sturdiness Baso Decor can also be used as a self-supporting sound absorption element.

OUR SERVICE

- Expert consulting + sound measurement and acoustic layout on your premises in accordance with UVV "Lärm" (German accident prevention regulation), EU "Noise" guideline (2003/10/EG) and DIN 18041 within Germany on request
- Complete assembly within Germany

POSSIBLE APPLICATIONS

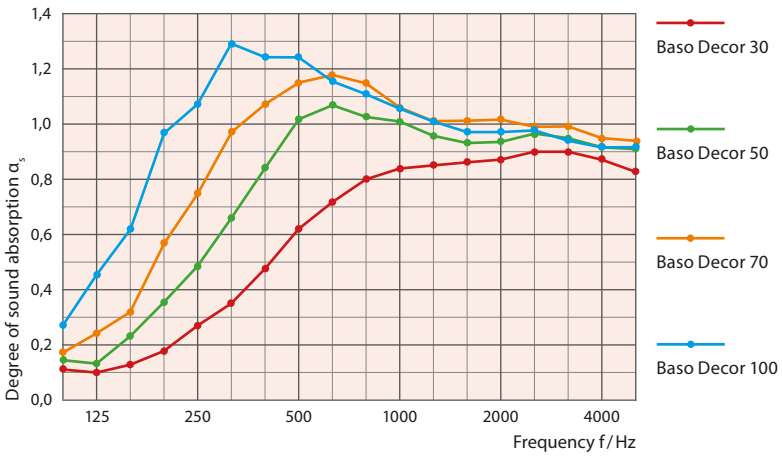

- Open plan offices
- Call centres

CHARACTERISTICS

- **Size:** 1000 x 500 x 30/50/70/100 mm
- **Colour:** light grey and white
- UV resistant
- High degree of absorption
- Filigree, open-cell structure
- 45 degree bevel edge
- Available with self-adhesive layer
- **DIN 4102 B1 (high flame resistance)**

SOUND ABSORPTION DIN EN ISO 354

Sound absorption according to ISO 354:
